IMPORTANT: PLEASE READ

It is mandatory that you read the information in this packet including the Frequently Asked Questions and complete the enclosed test prior to your consultation. Dr. Kornmehl requires that each patient be educated about the KAMRA™ inlay using the information that is provided. We strongly encourage you to write your questions down on the back of the test after reviewing his information. Dr. Kornmehl will take the time to answer your questions during the evaluation.

You may be asked to reschedule your appointment if you arrive without the test completed. It is imperative that all patients coming in for an evaluation have an understanding of what this procedure entails. We also request that you take the time to complete the attached Medical History Form and bring in with you for your appointment.

We look forward to meeting you!

Thank you,

Ellen Hildreth
Office Manager

Questions on the KAMRA™ Inlay Surgical Procedure

The following questions cover important information contained in this information packet. Please mark the correct answer. If you should have any questions, please list your questions for Dr. Kornmehl on the back of this sheet for you and Dr. Kornmehl to review during your consultation.

1. TRUE or FALSE Presbyopia occurs as one ages because the lens inside your eye becomes less flexible.

2. TRUE or FALSE The KAMRA™ inlay is a laser surgical procedure that significantly reduces your dependence on reading glasses.

3. TRUE or FALSE All patients obtain excellent reading vision one day after surgery.

4. TRUE or FALSE The KAMRA™ inlay does not decrease my peripheral vision but may cause some dimness in the eye with the implant.

5. TRUE or FALSE The KAMRA™ inlay can be removed if necessary.

6. TRUE or FALSE Treatment of dry eye is not necessary for a successful result.

7. TRUE or FALSE Dry eye, glare, halos and nighttime visual disturbances may be present for up to 3 months following placement of the inlay.

8. TRUE or FALSE The KAMRA™ inlay has been around for more than 10 years and is the #1 prescribed corneal inlay in the world.

9. TRUE or FALSE There is no guarantee on how well you will see following the procedure.

10. TRUE or FALSE The KAMRA™ inlay is the only way to improve your near vision.

11. TRUE or FALSE Your understanding is the KAMRA™ inlay is a relatively new procedure and that long term risks may not be fully known.
